- 1) Write the equation
- 2) Fill in the given numbers
- 3) Show the next step in solving the equation (this may be hooked on to step 2) 4) Write the answer in equation form (ex: A=25 in.) Exception: If you need to perform simple math (adding, subtracting, multiplying, or dividing) to solve the equation, do it off to the side and then insert the solutions into the equation.
