**This test is closed book and closed notes.** A parent should monitor the test taking; making sure the student's test is neat, shows all work, and has boxes drawn around the answers. For all tests, students must use the "**Test Solutions Recording Form E**" found on the last page of the Tests & Worksheets book; **you will need to copy this form for each test.** The student should work the problem in the designated area and put a square box around the answer. If the student needs more room, they can use a piece of notebook paper and staple it to the form. However, the boxed answer should appear on the Test Solutions Recording Form. DO

NOT transfer the answers back to the test itself. Please place the finished test in a sealed envelope with the parent's signature on the outside to be turned in to the tutor for grading
